

TECHNICAL DATA SHEET

RULER LOW TLS S3S FO SR SAFETY SHOES

DESCRIPTION:

These protective shoes combine modern design and functionality. Made with a reinforced upper and highly durable sole, these shoes provide optimal protection for the feet. The design ensures stability and protection in demanding work conditions. Suitable for professional use in industrial and construction environments, with bright accents for improved visibility.

*The quick fit system (06100674) allows you to adjust the shoes according to your needs, ensuring a stable and secure fit, regardless of the terrain.
