Tear resistance:	4	EN 388:16	Standard - Year of Issue
Puncture resistance:	1	2025	Manufacturing Date (Year)
TDM cut resistance	X		

Instructions for Maintenance and Use of Protective Gloves: Protect the gloves from heat radiation. Exposure to organic solvents and their vapors, lubricants, greases, mineral oils, and water is not recommended. Gloves soiled with coarse dirt should be cleaned with a brush and left to air dry at room temperature. The gloves cannot be washed or chemically cleaned.

Caution: The gloves should not be used in places where there is a danger of entanglement with moving parts of machinery. The protective properties mainly apply to the palm of the gloves. Always use gloves of the correct size and inspect their condition before each use. Never use torn, hardened, or otherwise damaged gloves. Sensitivity reactions on the skin may occur for some individuals - in such cases, it is not appropriate to continue using the gloves.

Transport and Storage: Transport the gloves in their original packaging or in a polyethylene bag. The gloves should be stored in a dry and cool environment, away from direct sunlight. Under suitable conditions, the storage period is five years.

The Declaration of Conformity can be found on the product page in the documents section at:
