

SEKURBLOK

Robust: Synthetic high resistance housing, offering great durability

Safe: For loads up to 140 kg reducing impact force below 6kN

4,5mm galvanized steel wire rope
swivel ring: to avoid entanglement
And improve equipment functioning.

Fall indicator: In case of fall the green indicator
Turns into red indicating a fall and that it should be inspected

Norm	EN 360, ATEX 94/9/CE, EN 13463-1, EN 13463-5, II 2 G c T6				
Length	7,5m	10m	15m	20m	30m
Weight	3,57kg	3,77kg	6,90kg	7,45kg	12,80kg
Static resistance	15kN				

Material	
Cable	Galvanized steel
Metalic components	Steel
